CONFERENCE

« The private copying exception and the compensation of harm in a dematerialised environment: challenges and opportunities »

Conference organised by AUVIBEL, under the chairmanship of Professor Frank Gotzen,
KU Leuven and with the collaboration of &DE BANDT Attorneys

AUVIBEL is very pleased to invite you to a conference that it is organising. Law, economy and technology are often considered to be incompatible. In an increasingly digitalised environment, the mission of AUVIBEL should however be examined from a multidisciplinary perspective. To that end AUVIBEL proposes to analyse the scope of the private copying exception simultaneously from a legal, economic and technological perspective.

The conference will take place in the Palace of the Academies in Brussels and offers participants the opportunity to attend the presentations of specialists in these areas and to interact with them. The written contributions of the keynote speakers will be available at the conference. The afternoon shall be concluded with a cocktail offered by AUVIBEL.

We are looking forward to welcoming you on this special occasion,

François Stroobant
Director general AUVIBEL

PROGRAMME
